PROFESSIONAL SUMMARY

Game QA Lead with 7+ years of game QA experience across manual testing, project management, and release management, including AAA console QA on For Honor at Ubisoft. Currently leading a team of 10+ QA engineers at IGT Solutions, with a proven record of managing crunch time and team churn without missing delivery dates or losing test coverage. Key results: 90%+ of releases shipped with zero critical post-launch defects, regression cycles cut by around 40%, and a 99%+ crash-free rate on live titles. Shipped 40+ live Steam titles for European and US clients and managed QA for 19+ UAE indie-studio titles per month, across casual, puzzle, action, and iGaming genres on PC, Console, Mobile, and AR/VR platforms. Expert in QA Strategy, SDLC, STLC, Release Management, Live Service (GaaS), Sprint Planning, and cross-functional team collaboration. Proficient in Agile, BDD, JIRA, TestRail, Unity3D, Unreal Engine 5, and CI/CD pipelines.

CORE COMPETENCIES

Game QA – PC/Console/Mobile/AR/VR/Web/Cloud | Project & Release Management | QA Strategy & Quality Management | Stakeholder & Client Management | Agile / Scrum / Sprint Planning | SDLC / STLC / Build Management | Team Leadership & People Management | Vendor & Offshore Team Management | Live Service / GaaS & LiveOps | AAA & Indie Titles

WORK EXPERIENCE

Project Lead – Game Testing

IGT Solutions Pvt Ltd, Gurugram (Gurgaon) – Game QA Outsourcing | Jun 2023 – Present
Tools: JIRA (Admin, Workflow, Sprint Boards), TestRail, Unreal Engine 5, Unity3D, Git, MySQL, MongoDB, Redis, MS Excel, MS Project, CI/CD

- Led a QA team of 10+ engineers; recruited and onboarded 10+ QA testers and mentored team members through to promotion; shipped 40+ live Steam titles across casual, puzzle, strategy, and action genres for European and US-based studios (Jewel Match Origins 3, Jewel Match Solitaire 1, 2 & Seasons, Buluk Mayan Warfare); managed QA for 19+ UAE indie-studio titles per month; and collaborated with developers, designers, and artists to deliver all projects on time and within scope.
- Developed project plans covering scope, milestones, sprints, and resource allocation; built and maintained a test matrix; conducted test estimation; organized bug-bash sessions for intensive pre-release testing; managed defect triage, vendor/third-party QA relationships, and project budgets; onboarded new clients; and communicated the impact of scope changes to stakeholders.
- Served as the primary point of contact for all international clients; held QA sign-off authority for all milestone and release approvals; collaborated daily with cross-functional teams (developers, designers, artists); led sprint retrospectives, backlog grooming, and stand-ups; coordinated offshore and remote QA teams; proactively resolved conflicts and eliminated bottlenecks; and communicated project status, risks, and mitigation plans transparently to stakeholders.
- Defined the QA strategy and quality standards across all projects; monitored crash-free rate, DAU/MAU, and QA metrics (defect density, defect escape rate, test coverage); conducted Root Cause Analysis (RCA) on critical defects; owned the Defect Life Cycle and ensured Live Service (GaaS) quality; and oversaw monetization testing, player experience, UX testing, and SLA compliance.
- Owned Release Management across the full SDLC: Pre-Alpha, Alpha, Beta, Gold Master, Patch/Hotfix, and Post-Launch LiveOps; provided QA sign-off at each milestone; built and maintained regression and smoke suites that cut regression cycle time by around 40%; and directed functional, compatibility, localization, cross-platform, multiplayer, and UAT testing for every release, with 90%+ of releases shipping free of critical post-launch defects.
- Authored complete QA documentation: SOPs/Guidelines, Test Plans, Test Matrices, Testing Procedures, Test Cases and Scenarios, Daily/Weekly Reports, RTM, PRD, Checklists, Feedback Forms, QA Roadmaps, Defect Triage Reports, Test Closure Reports, and Postmortem/Incident Reports; reviewed Game Design Documents (GDD) to derive test scenarios; and acted as Localization Lead for multi-region releases.
- Managed crunch-time delivery by re-scoping to a documented, risk-based critical path and protecting regression testing under deadline pressure; handled team churn by pairing new testers with experienced ones and using documented test cases as the handover mechanism, so coverage was never lost mid-project.

Senior QA Analyst – Freelance

Passage.io, USA (Remote) | Mar 2023 – Jun 2023
Tools: Unreal Engine 5, Trello, MySQL, Plastic SCM, MS Excel

- Shipped Passage World Building, a real-time Blockchain/NFT Metaverse Live Service game with virtual land, in-app purchase (IAP) commerce, and social collaboration; executed Smoke, Regression, Exploratory, Ad-Hoc, Performance, UX, and edge-case testing; and managed test coverage and build stability across all iterations.

Senior Quality Analyst

Passion Gaming Pvt Ltd, Gurugram | Jul 2022 – Feb 2023
Tools: JIRA, TestRail, Unity3D, MySQL, Postman, Swagger, Git

- Led quality assurance for Rummy Passion (real-money iGaming) across Cash, Sit-N-Go, Pool, Points, and Deals modes; performed monetization testing, bug tracking, and defect triage; created Test Plans, PRDs, and test cases; and validated IAP flows, KYC, Back Office tournament events, SFX, and lottery rewards through full STLC delivery.

Testing Engineer – Level 2

Indium Software Pvt Ltd, Bengaluru | Jul 2021 – Jul 2022
Tools: JIRA, TestRail, Media Shuttle, MS Excel

- Delivered end-to-end testing for CSR 2 (mobile drag racing: PvP, PvE, and Campaign) and iGaming slot titles; performed bug tracking and defect triage; validated clipping, object behavior, DLC, animations, VFX/SFX, and event rewards through Regression, Smoke, Ad-Hoc, and Exploratory testing; and identified critical crash scenarios through edge-case analysis.

Game Tester – QA/QC

Ubisoft Entertainment Pvt Ltd, Pune | Jul 2019 – Jul 2021
Tools: JIRA, PS4 Neighborhood, Telescope, Bloomberg (Ubisoft in-house crash reporter), MS Excel

- Performed QA on For Honor, a AAA cross-platform hack-and-slash title (PS4/Xbox/PC); executed multiplayer and network testing; validated fight mechanics, clipping, DLC, VFX/SFX, and cinematics; administered daily test operations; ensured release compliance; performed defect triage; identified defects early in the SDLC; and recommended test procedure improvements.

Game Tester (Intern)

U2opia Mobile, Gurugram | Apr 2019 – Jun 2019

- Tested 5 mobile titles on Google Play and the App Store; performed bug tracking; created test cases and checklists; and tracked KPIs via Firebase, IronSource, and Google Analytics.

Software QA Analyst (Intern)

I-Tuple Technologies, Gurugram | Dec 2018 – Apr 2019

- Performed API testing on Milkbasket (e-commerce app) using Postman and JIRA; designed and executed test cases; and ensured release compliance.

TECHNICAL SKILLS

Platforms: PC, Console (PS4/Xbox/Switch), Mobile (iOS/Android), AR/VR, Web, Cloud, Steam
Game Engines: Unity3D, Unreal Engine 5
Game Genres: Open World, RPG, Online Multiplayer, Hyper-Casual, Puzzle, Strategy, Action/FPS, iGaming, Live Service (GaaS), Metaverse, NFT/Blockchain
Test Management: JIRA (Admin, Workflow, Sprint Boards), TestRail, Xray, Trello, Asana
Methodologies: Agile, Scrum, Sprint Planning, BDD (Behavior-Driven Development), Waterfall, Kanban, RAD (Rapid Application Development)
Testing Types: Functional, Non-Functional, Manual, Feature, Regression, Smoke, E2E, UAT, Post-Launch, Localization, Compatibility, Ad-Hoc, Performance, Multiplayer, Network, UX, Monetization, Cross-Platform, A/B, Patch/Hotfix, Progression
QA Process: SDLC, STLC, QA Strategy, Test Strategy, Test Planning, Quality Management, Defect Life Cycle, RCA, Test Coverage, Test Estimation, Test Matrix, Defect Triage, QA Sign-off, Build Management, Crash-Free Rate
Project Management: Project Delivery, Stakeholder Management, People Management, Release Management, Backlog Grooming, Sprint Retrospectives, KPI Reporting, SLA, Risk Management, Resource Allocation, Vendor Management, Offshore Team Management
API & QA Tools: Postman, Swagger, Selenium (Basic), Test Automation (Basic), Bloomberg (Ubisoft in-house crash reporter), Android Studio, Xcode
Databases: MySQL, MongoDB, Redis
Version Control & CI/CD: Git, GitHub, Plastic SCM, Bitbucket, Jenkins, Azure DevOps, CI/CD Pipelines
Reporting & Collaboration: MS Excel, MS Project, PowerPoint, Slack, Google Analytics

EDUCATION

Bachelor of Technology (B.Tech), Computer Science | Manav Rachna International University, Faridabad | 2017

KEY STRENGTHS

Active Listening | Solution-Oriented | Ownership & Accountability | Decisive Under Pressure | Critical Thinking | Team Leadership | Out-of-the-Box Problem Solving | Self-Motivated

AWARDS & ACHIEVEMENTS

Spot Award – Active Testing Excellence, Indium Software | 2nd Place – Battleground QA Event, Ubisoft Entertainment | Taekwondo Gold Medalist (2010, 2011, 2012)
